PART II: TRIGGERS

PHRASE TRIGGERS

At this point, you have no way of writing a trigger that matches on "New York City" -- the only triggers you know how to write would be a trigger that would fire on "New" AND "York" AND "City" -- which also fires on the phrase "New students at York University love the city". It's time to fix this. Since here you're asking for an exact match, we will require that the cases match, but we'll be a little more flexible on word matching. So, "New York City" will match:

- New York City sees movie premiere
- In the heart of New York City's famous cafe
- New York City random text to prove a point here

but will not match:

- I love new york city
- I love New York City!!!!!!!!!!!!!!

PROBLEM 9

Implement a phrase trigger (`PhraseTrigger`) that fires when a given phrase is in **any** of the story's subject, title, or summary. The phrase should be an argument to the class's constructor. You may find the Python operator `in` helpful, as in:

```
>>> print "New York City" in "In the heart of New York City's famous cafe"
True
>>> print "New York City" in "I love new york city"
False
```

When this is done, the `PhraseTrigger` unit tests should pass.

GRADER IS CURRENTLY DOWN; IT WILL BE AVAILABLE SOON!

In the meantime, you can work on implementing this problem on your own machine, and verify your implementation with the provided test suite file.
